A. The following is an examiner's statement of reasons for allowance: JP 2000-017034 Kobayashi has been further considered. The Japanese translation supplied is referenced. It is noted that the reference discloses artificial leather sheets made by impregnating fabric with aqueous dispersions of polyurethane and vinyl polymers which may have ethylene oxide side chain imparting monomers in amounts of up to 20 wieght percent which will give slightly less of a percentage of polyoxyethylene groups in the final polymer. See page 5 of the "MEANS" section of the translation. There is not motivation to increase the amount of ethylene oxide chains to those required by the instant claims nor a teaching that the results of the applicant would be achieved by doing so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
